DISEASE: Autoantigen in the paraneoplastic opsoclonus myoclonus attaxia (PCMA), a paraneoplastic neurological syndrome/disorder (PNS/D) associated with breast cancer, fallopian cancer, and SCLCa and characterized primarily by loss of inhibitory control of motor neurons in the spinal cord and brainstem. Recognized by the IgG autoantibody ANNA-2 (also called anti-Ri).

SIMILARITY: Contains 3 KH domains.

"Molecular characterization of MARTAI, a protein interacting with the dendritic targeting element of MARTAI, a protein interacting with the J. Neurochem. 82:1039-1046(2002).

-!- FUNCTION: Part of a ternary complex that binds to the downstream control sequence (DCS) of the pre-mRNA. Mediates exon inclusion in transcripts that are subject to tissue-specific alternative splicing. May interact with single-stranded DNA from the farupstream element (FUSE). May activate gene expression (By similarity). Binds to the dendritic targeting element and may play a role in mRNA trafficking.

-!- SUBUNIT: Part of a ternary complex containing FUBP2, PTBP1, PTBP2
                                                                                                                                                                                                      [1] -

SUBCELLULAR LOCATION: Nuclear. A small proportion is also found in the cytoplasm of neuronal cell bodies and dendrites.

May act both as activator and repressor of transcription.
-!- SUBGNIT: Interacts with SIAHBPI/FIR and JTV1.
-!- SUBCELLULAR LOCATION: Nuclear (Probable).
-!- ALTERNATIVE PRODUCTS:
Event=Alternative splicing; Named isoforms=2;

       Proc. Natl. Acad. Sci. U.S.A. 99:16899-16903 (2002).
-!- FUNCTION: May interact with single-stranded DNA from the far-
upstream element (FUSE). May activate gene expression.
-!- SUBCELLULAR LOCATION: Nuclear (Probable).
                                                                                                                                                                                                                                                                                                             CAUTION: Ref.1 sequence differs from that shown due to a

No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
